What we’ll cover today

- Washington Apple Health (Medicaid) restoration
- Apple Health and managed care plans overview
- Scenarios
- Resources
- Q&A session
Medicaid restoration

Prior to the passing of this legislation, COFA islanders were limited in their ability to receive Apple Health.

- Children and pregnant individuals were and continue to be eligible for Apple Health.

HCA is updating the eligibility system to allow COFA islanders to receive Medicaid as qualified non-U.S. citizens exempt from the 5-year bar.
COFA Islander programs transition

Individuals enrolled in COFA Islander Health Care who are:

- Under age 65 and without Medicare will transition to Apple Health for Adults on July 1.
- Age 65 and older or have Medicare must apply for Apple Health via washingtonconnection.org.
COFA Islander programs transition

When COFA Islander Health Care ends, the COFA card remains active for three months. The COFA card may:

- Be used to pay bills for services received when an individual had COFA Islander Health Care.
- Not be used for bills related to services received while on Apple Health.

Contact HCA for assistance if:

- Additional funds are needed or
- A bill is received after three months
Apple Health transition

An application is required to determine if an individual is eligible for Apple Health.

- COFA islanders must meet all eligibility criteria for Apple Health, including income limits, Social Security Number (SSN) requirements and Washington residency.

- COFA islanders who have been terminated from or denied COFA Islander Health Care are encouraged to update their Washington Healthplanfinder applications.
Transition preparation

Before the system implementation there are a few things COFA islanders can do to prepare. They can:

- Ensure their Washington Healthplanfinder application is up to date. This includes addresses, household members and income.
- Submit a new application in Washington Healthplanfinder or Washington Connection.
- Designate an Authorized Representative.
- Check with their providers to see which managed care plans they accept.
Apple Health and Managed Care Plans Overview
MAGI-based Apple Health

Most individuals eligible for Apple Health apply for coverage online at wahealthplanfinder.org.

- These Apple Health programs are referred to as MAGI-based medical programs.

- MAGI-based Apple Health programs eligibility includes income limits, household size, and residency.

Non-MAGI Apple Health

Non-MAGI Apple Health refers to programs administered by the Department of Social and Health Services (DSHS).

- Individuals who are age 65 years or older, have a blindness or a disability, or need Long-Term Services and Supports (LTSS), apply for Apple Health coverage online at washingtonconnection.org or submit a paper application.

- Eligibility criteria varies for each program and is based on household size, income, and resources.
Apple Health next steps

Individuals enrolled in Apple Health will:

- Receive a ProviderOne Services card.
  - If a COFA islander had Apple Health in the past, it is still valid. They will not receive a new card.

- Enroll in a plan with a Managed Care Organization (MCO).

- Receive a letter with their Apple Health Welcome booklet link to view online. A paper copy may be requested.
ProviderOne Services Card

Each person in the household enrolled in Apple Health will have their own Services card. Replacements may be requested online at waprovderone.org/client.

- The number can also be viewed electronically on the WAPlanfinder mobile app.
- The ProviderOne client number is needed to receive health services.
Managed Care enrollment process

- Non-MAGI individuals will receive:
  - Notice of enrollment in a health plan and instructions on how to change plans.
  - Enrollment Handbook with information about Apple Health and managed care.

- Earlier Enrollment – Newly eligible individuals are enrolled in managed care plans effective the first of the current month.
Managed Care enrollment process

What to expect:

Once COFA islanders are enrolled in a managed care plan, their MCO will contact them with some initial health questions.

Responding to these questions allow the MCO to assist COFA islanders with coordination of necessary health care services.

- UHC – UnitedHealthcare Community Plan

Washington State Health Authority
What is Integrated Managed Care (IMC)?

Integrated managed care is also referred to as whole-person care. Managed care organizations (MCO) coordinate and pay for both physical health and behavioral health services.

Behavioral health services include mental health and substance use disorder treatment services.

For more information on behavioral health recovery visit hca.wa.gov/health-care-services-and-supports/behavioral-health-and-recovery
Working with MCOs

Individuals may contact their MCO for help and questions with:

- Translation services
- Coverage of their Primary Care Provider (PCP)
- Assistance finding a covered specialist
- How to use the MCO website
- Any other questions or assistance individuals may require
Changing plans

Apple Health enrollees may change their plans monthly. Managed care plans can be changed by:

- Phone: 1-800-562-3022
- Online: [waproviderone.org/client](waproviderone.org/client)
- [WAPlanfinder](waproviderone.org/client) Mobile app
- Online: [wahealthplanfinder.org](wahealthplanfinder.org)

The changes are effective the following month.
Managed care plan selection
Managed care plan selection
Scenarios
Scenario one

Julie had COFA Islander Health Care until July 1 when she transitioned to Apple Health. She goes to the pharmacy on July 16 to get her prescriptions.

*What information does she provide?*

Since Julie has Apple Health beginning in July, she will provide her managed care card and ProviderOne Services card or tell her pharmacist she has Apple Health.
Scenario two

Julie had COFA Islander Health Care until June 30. On July 10, she received a bill for her January hospital stay.

*Can she use her Apple Health to cover this bill?*

No. Julie had COFA Islander Health Care in January. Her COFA card is active until September 30. Once she confirms her insurance plan paid their part, she uses her COFA card to pay the balance.
Scenario three

George moved to Washington in July 2021 and wants healthcare coverage. He is 49, does not have Medicare and is not working. His cousin told him about COFA Islander Health Care and on August 25 he submits his Washington Healthplanfinder application.

What is the outcome of this scenario?

George is eligible for Apple Health. Since he applied in August, his coverage will begin August 1. He can select a managed care plan or have one assigned for him.
Scenario four

Rebecca has COFA Islander Health Care, and her children have Apple Health. She transitions to Apple Health on July 1.

Which managed care plan will she have when she enrolls in Apple Health?

She will have the same managed care plan as her children. She will need to ask her doctors if they accept Apple Health and the plan her family has.
Scenario five

Rebecca’s spouse, Steve, had employer sponsored insurance and could not get COFA Islander Health Care.

*Is Steve eligible for Apple Health?*

He may be eligible if he meets other requirements such as income and residency. Having other insurance does not disqualify adults from Apple Health.
Scenario six

Sam is 72 and applied for Apple Health with DSHS. His monthly income of $342 is from Social Security and his resources are $2800 in savings. He is denied non-MAGI Apple Health because he has too many resources.

*How can Sam have healthcare coverage?*

Sam may be eligible for COFA Islander Health Care. He can apply through Washington Healthplanfinder.
Scenario seven

Mary is 57, has Medicare and $897 Social Security income. She needs help with her premium and heard that there may be an Apple Health program that can help.

Where does Mary apply for Apple Health?

Mary applies for Apple Health on washingtonconnection.org. She is approved for Medicare Savings Program and has her Part A and Part B premiums, deductibles and copayments covered.
Scenario eight

Julie is 27, single, and works at the casino making $4000 per month. She applied for Apple Health because she heard it was restored for COFA islanders.

*What is the outcome of this scenario?*

Julie is not eligible for Apple Health because she is over the income limit. While Apple Health has been restored to COFA islanders, they must meet all eligibility requirements.
Scenario nine

Jack was in the hospital in April and did not have insurance. Jack applied for Apple Health in July and is approved effective July 1. He selects a managed care plan and receives his cards.

How can Jack cover his hospital stay?

Jack requests retroactive medical coverage for the month of April. HCA reviews and approves his request. Jack calls the hospital and provides his ProviderOne Services Card to cover his hospital stay.
Transition to Apple Health

Transition to Apple Health (Medicaid)

The Health Care Authority (HCA) is working with state and federal partners to plan the transition of COFA Islander programs to Apple Health coverage for individuals from the Federated States of Micronesia, the Republic of Palau, and the Republic of the Marshall Islands.

COFA Islanders seeking coverage now should continue applying for COFA Islander programs through Washington Healthplanfinder until the transition is complete.
