

Healthier WA Plan for Improving Population Health External Advisory Group

Purpose of Plan for Improving Population Health: Guide how the state and local communities can best implement population health improvement strategies and ensure the Healthier Washington initiative addresses prevention, health equity and the social determinants of health

Purpose of External Advisory Group:

- Provide input and guidance on development of the Plan
- Offer regional, local and statewide member associations' perspective regarding implementation and sustainability
- Assure health equity is addressed in developing the Plan
