

Healthier Washington Plan for Improving Population Health Interagency Advisory Group

Purpose of Plan for Improving Population Health:

Guide how the state and local communities can best implement population health improvement strategies and ensure the Healthier Washington initiative addresses prevention, health equity and the social determinants of health.

Purpose of Interagency Advisory Group is to advise DOH in these areas:

- Maintaining alignment with Healthier Washington investment areas and agency strategic plans and current programs when appropriate.
- Communicating progress on development of the plan with agency internal stakeholders.
- Developing the methodology of improving population health.
