Cervical Cancer Screening

Denominator:

*Data elements required for denominator:* The eligible population.

*Required exclusions for denominator.*
- Eligible population exclusions are listed in the eligible population table above.
- Metric specific exclusions:
  - Beneficiaries in hospice care.
  - Members receiving palliative care.
  - Hysterectomy with no residual cervix, cervical agenesis or acquired absence of cervix (Absence of Cervix Diagnosis Value Set; Hysterectomy With No Residual Cervix Value Set) any time during the member’s history through the last day of the measurement year.

*Deviations from cited specifications for denominator.*
- HEDIS® specifications require no more than one gap in continuous enrollment of up to 45 days during each year of continuous enrollment. To determine continuous enrollment for a Medicaid beneficiary for whom enrollment is verified monthly, as is the case for the ProviderOne data source, the Medicaid beneficiary may not have more than a 1-month gap in coverage (i.e., a Medicaid beneficiary whose coverage lapses for 2 months [60 days] is not considered continuously enrolled).

Numerator:

Beneficiaries must qualify for inclusion in the denominator to be eligible for inclusion in the numerator.

*Data elements required for numerator:* The number of women who were screened for cervical cancer.

*Required exclusions for numerator.*
- None

*Deviations from cited specifications for numerator.*
- None
