Other:

1. Chlamydia Screening Women (NCQA HEDIS) includes young women ages 16 - 17 in the age range 16 - 24 years.

2. Medication Management for People with Asthma includes children ages 5 - 18 but results are not reported separately from adults. This is a new measure in 2016.

\* ACH = Accountable Community of Health; there are nine ACHs in Washington and they include groupings of the state's 39 counties. Public reporting includes counties/ACHs where the denominator meets a threshold of 30 or more.

\*\*Public reporting includes groups of four or more providers where the denominator meets a threshold of 100 or more.
