

## P&T Motion History Second Generation Antipsychotics

Drugs reviewed	Motion	Date reviewed	Surveillance accepted as adequate	Reiteration of prior motion	Decision
aripiprazole brexpiprazole cariprazine olanzapine quetiapine risperidone ziprasidone	<p><b>Atypical Antipsychotics as Adjuvant Therapy for the Treatment of MDD</b></p> <p>After considering the evidence of safety, efficacy and special populations for the Adjuvant Therapy for the Treatment of MDD, I move that aripiprazole, brexpiprazole, cariprazine, olanzapine, quetiapine, risperidone, and ziprasidone are efficacious for their approved FDA indications and should be preferred on the Washington Preferred Drug List. Second Generation Antipsychotics cannot be subject to therapeutic interchange in the Washington preferred drug list. The preferred drug list should include at least one medication that is considered safe in pregnancy.</p> <p>Motion: Beste 2<sup>nd</sup>: Barkett</p>	April 17, 2024	NA	No	Passed unanimous
aripiprazole asenapine lurasidone olanzapine	<p><b>Use in children</b></p> <p>After considering the evidence of safety, efficacy and special populations for the treatment of schizophrenia and bipolar</p>	June 15, 2022	Yes Buccola Schwilke	No	Passed unanimous
