Summary of Revision

- 1) Insert orphaned WACs 182-512-0760 and 182-512-0780 into this section.
- 2) Remove WAC 182-512-0770 from Long Term Care Excluded income section and place it into this section - SSI-related income overview. Note: The LTC rules (and manual section categories) refer to SSI-related rules as appropriate. We do not want this WAC sitting in the LTC section of the manual.

Apple Health (Medicaid) Manual revision via track changes:

- 1) Insert this rule, 182-512-0760 after Clarifying Information (CI) below 182-512-0750 SSI-related medical – Countable unearned income. Note: there is no CI to add at this time under 182-512-0760. This rule is currently published online, but as a standalone that is found only through using the search option within the manual:

<http://www.hca.wa.gov/free-or-low-cost-health-care/program-administration/wac-182-512-0760-ssi-related-medical-education>

- 2) Move 182-512-0770 American Indian or Alaska Native excluded income and resources from current location in LTC Excluded income section (<http://www.hca.wa.gov/free-or-low-cost-health-care/program-administration/excluded-income>) to the Classic – Income overview section. Place it under 182-512-0760. Note: This rule is currently included in the SSI-related

Excluded Resources section. A link should remain there as is, but we also need it in the SSI-related income overview, since the rule speaks to both income and resources.

- 3) Insert this rule, 182-512-0780 Employment and Training programs, under 182-512-0770. This rule is currently published online, but as a standalone that is found only through using the search option within the manual:
