

## ***Washington Healthplanfinder – May 2022 System Release***

---

### **System release outage**

*Washington Healthplanfinder* is scheduled to go live Thursday, May 5, 2022. The system will not have down time for this release.

### **System corrections**

- An additional record will *not* be created when a dependent who was previously terminated is added back to an enrollment during a special enrollment period that has retroactive start date.
- When a birth is reported after open enrollment, *Washington Healthplanfinder* will now start the tax credit for the household in the month following addition of the dependent.

### **Correspondence**

- The *Important Deadline for Submit Information (EE001)* correspondence will not be sent out to customers whose eligibility is conditional and transitioned to approved during same day.
- When a customer reports income for a second employer and answers differently to the question: “Does your employer offer you insurance”, the *Letter to Employer (EE006)* will not be triggered for the employer who does not offer insurance.
