Behavioral Health Service Delivery Guide Overview

The Washington Health Care Authority (HCA) is pleased to present the first iteration of the Behavioral Health Service Delivery Guide (BHSDG). The BHSDG includes information on licensed and non-licensed behavioral health providers across the state who deliver services across the behavioral health continuum of care. The primary purpose of the BHSDG is to provide a directory for behavioral health providers to use when they need to refer an individual to a specific service and to help individuals locate a behavioral health provider in their geographic area.

We understand that provider information may change (e.g., address, phone number, website, etc.). If provider information needs to be updated, or if unable to contact a resource in this document, please send a request with the updated information to hcacommunications@hca.wa.gov.

Need Support Now?

If you or someone you know is struggling or in crisis, help is available. Call or text [988](tel:988) or chat 988lifeline.org.

About 988

People can call or text [988](tel:988) or chat 988lifeline.org for themselves or if they are worried about a loved one who may need crisis support. 988 serves as a universal entry point so that no matter where you live in the United States, you can reach a trained crisis counselor who can help. 988 offers 24/7 access to trained crisis counselors who can help people experiencing mental health-related distress. That could be:

- Thoughts of suicide
- Mental health or substance use crisis
- Emotional distress
- And other [reasons to connect \(46 seconds\)](#)

Washington Recovery Help Line

Website: <https://www.warecoveryhelpline.org/>

Phone: 866-789-1511

The Washington Recovery Help Line offers an anonymous, confidential help line for Washington State residents. This help line is for those experiencing substance use disorder, problem gambling, and/or a mental health challenge. Our professionally trained staff provide emotional support. They can also connect callers with local treatment resources or more community services.

How to Find Services in a County

The BHSDG is organized by county. Each county includes the behavioral health modalities currently available. To find behavioral health services, please go to the Table of Contents and:

1. Locate the desired county.
2. Click on the desired type of service.
3. Read the list of available locations and contact information.

Please note that some counties do not currently have services available in all modalities. If a service is not listed in the desired county, a footnote will be attached to the county name. The footnote will include a list of the services that are not currently available and any additional information that

is specific to that county, such as if a service is available regionally but not in the desired county.

Some program and provider information (e.g., address, phone number, website, etc.) is not currently available to HCA. If a program or provider does not have the same information, the information is not currently available to the Health Care Authority (HCA). HCA will regularly update the BHSDG as additional information becomes available.

Program and provider information can change, so HCA recommends contacting the provider to confirm service type and location.
