

Transhealth program

The Transhealth program provides coverage for medically necessary gender affirming treatment and is included in your Washington Apple Health (Medicaid) coverage.

Hormone therapy and mental health services are covered services through your managed care plan.

Other gender affirming treatments are covered directly by Apple Health, not by your managed care plan, also known as fee-for-service (FFS). Use your ProviderOne services card when accessing these services.

How to apply for Apple Health

Not an Apple Health client? You can apply for free or low-cost Apple Health coverage through Washington Healthplanfinder year-round.
