DATA SOURCE: Administrative data (ProviderOne).

NOTES: WISe services include WISe service encounters recorded in P1 data system, including all behavioral health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using January 2019 Behavioral Health Organization (BHO) and IMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. No lag factors applied. Median lifetable length of stay shown for episodes of WISe services starting in time period specified. ¹Because SUD data is not available prior to April 2016, SUD services are underreported.

DATA SOURCE: Administrative data (ProviderOne).

NOTES: WISe services include WISe service encounters recorded in P1 data system, including all behavioral health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using January 2019 Behavioral Health Organization (BHO) and IMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. No lag factors applied. Median lifetable length of stay shown for episodes of WISe services starting in time period specified. ¹Because SUD data is not available prior to April 2016, SUD services for SFY 2016 are underreported.

NOTES: WISe services include WISe service encounters recorded in P1 data system, including all behavioral health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using January 2019 Behavioral Health Organization (BHO) and IMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. No lag factors applied. Median lifetable length of stay shown for episodes of WISe services starting in time period specified. Some medians not available due to a large proportion of censored episodes (episodes for which the full length of stay is unknown).

DATA SOURCE: Administrative data (ProviderOne).

NOTES: WISe services include WISe service encounters recorded in P1 data system, including all behavioral health outpatient services received in a month with at least one "U8" mental health service. Region information is displayed using January 2019 Behavioral Health Organization (BHO) and IMC boundaries. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. No lag factors applied. Median lifetable length of stay shown for episodes of WISe services starting in time period specified. Some medians not available due to a large proportion of censored episodes (episodes for which the full length of stay is unknown).
