

CBO site is an access point in which persons can be referred for MAT

Metric Information

Metric description: Community-based organization (CBO) site level measure of whether the site serves as an access point where individuals can obtain referrals for MAT.

Reporting period and deadline: Semi-annual, DY3 through DY5

Reporting Period	Reporting Deadline
January – June 2019	07/31/2019
July – December 2019	01/31/2020
January – June 2020	07/31/2020
July – December 2020	01/31/2021
January – June 2021	07/31/2021
July – December 2021	01/31/2022

DSRIP Program Summary

Project affiliation: Project 2A Project 3A

Metric respondent criteria: All community-based organizations (CBOs) that are identified by the ACH as a partnering provider engaged in Project 3A transformation strategies.

Metric Details

Question and Response Format:

Question	Response Format
Does the CBO site have protocols in place to refer people with opioid use disorders to providers of medication-assisted treatment?	Drop-down: <ul style="list-style-type: none">• Yes• No
Does the CBO site refer people with opioid use disorders for psychosocial care?	Drop-down: <ul style="list-style-type: none">• Yes• No

CBO site is an access point in which persons can be referred for MAT

<p>Does your site actively refer patients with opioid use disorder to a Hub & Spoke network or Opioid Treatment Network (OTN), where both medication and behavioral health treatments are available?¹</p>	<p>Drop-down:</p> <ul style="list-style-type: none">• Yes, via warm handoff• Yes, via providing information• No, we provide these services onsite• No, we do not refer for another reason

Potential Follow-Up Questions

The Independent Assessor (IA) and/or the Independent External Evaluator (IEE) may use these questions in follow-up conversations with partnering provider sites (practice/clinic, community-based organization) and ACHs. ACHs may elect to use them for their own follow-up activities with partnering provider sites.

- Does your CBO have protocols in place for providing MAT referrals for patients with OUDs?
- Can you describe these protocols?
- When patients present with OUDs, are these protocols followed always, sometimes or rarely?
- Do you have protocols to follow up regarding the success of the referral?
- What is your referral list?
- If the CBO site is referring to a hub and spoke network or OTN, can you describe how these connections occur in practice?
- If the ACH is implementing Pathways, how do connections occur between entities?
- If the ACH is not implementing Pathways, what is the mechanism for connecting clients to robust care coordination services?
- If the CBO is neither using hub and spoke or OTN connections for MAT referrals nor providing MAT directly, why is it not referring to or offering this service?

Version Control

July 2018 Release: Full P4R metric specifications released.
