Important news: Your health coverage is expanding

Dear (client name),

You have been approved for free coverage through Apple Health Expansion starting July 1, 2024. Your Apple Health Alien Emergency Medical (AEM) coverage will end June 30, 2024. You will be automatically enrolled in a new plan and your coverage should not be interrupted. Apple Health Expansion will cover the same services you have been receiving and provide more medical, dental, and vision services.

Why is free health coverage now available to me?

Legislation passed in 2022 allowing the Health Care Authority (HCA) to expand Apple Health coverage to adults with certain immigration statuses. Apple Health Expansion offers free medical, dental, and vision care through an Apple Health plan with no premiums.
