RE: Washington State Plan Amendment (SPA) Transmittal Number WA-18-0014

Dear Ms. Birch and Ms. Lindeblad:

The Centers for Medicare & Medicaid Services (CMS) has completed its review of the enclosed State Plan Amendment (SPA), Transmittal Number WA-18-0014. This SPA establishes temporary management and receivership for Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) that are experiencing deficiencies that do not immediately jeopardize the health and safety of individuals.

This SPA is approved effective August 1, 2018. Enclosed is a copy of the CMS-179 summary form, as well as the approved pages for incorporation into the Washington State Plan.

If there are any questions concerning this approval, please contact me or your staff may contact Betsy Conklin at Elizabeth.Conklin@cms.hhs.gov or at 206-615-2357.

Sincerely,

Associate Regional Administrator

Enclosure

cc:
Ann Myers, HCA
Loida Baniqued, DSHS
Gerald Heilinger, DSHS

Associate Regional Administrator

23. REMARKS:

7/8/18: State authorized P&I change to block 8 and 9

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State WASHINGTON

ELIGIBILITY CONDITIONS AND REQUIREMENTS

Enforcement of Compliance for Intermediate Care Facilities for Individuals with
Intellectual Disabilities ICF/IID

Additional Remedies: Describe the criteria (as required at §1902(i)(1)(B)) for applying the additional remedy.

I. Termination of agreement when the immediate jeopardy is not abated/removed

If there is immediate jeopardy to resident health or safety, the state terminates the ICF/IID's provider agreement within 23 calendar days from the date of notice to the facility.

II. Termination of agreement or non-renewal when there is no immediate jeopardy or the immediate jeopardy is abated/removed

A. If, prior to the termination date, the facility removes the serious and immediate threat, but a Condition of Participation (CoP) is still not met, the state may extend the compliance deadline for up to 90 days.

B. When immediate jeopardy does not exist, the state terminates an ICF/IID's provider agreement no later than 90 calendar days from the finding of noncompliance, if the facility does not meet the CoPs.

III. In lieu of termination of agreement

In lieu of termination of agreement, the state may consider imposing one or more of the following sanctions if deficiencies do not immediately jeopardize the health and safety of individuals. The application of the alternative sanctions are in accordance with current state laws.

With the exception of denial of payment for new admissions, the timing and notice of the alternative sanctions begin on the date the facility receives the written notice and Statement of Deficiencies, as documented by the Certified Mail Return Receipt. The facility has 45 days (state licensed ICFs) or 60 days (Residential Habilitation Centers) from the date the facility receives formal verbal notice of the state's findings (known as the "exit date") for the correction to be accomplished.

A. A Directed Plan of Correction (DPOC)

1. The state may impose a DPOC when the Conditions of Participation (CoPs) are out of compliance. The state chooses a DPOC when it determines the facility needs to make specific systemic changes in order to gain compliance and it has (or will be) unable to do so.

[Back to TOC](#)

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State WASHINGTON

Enforcement of compliance for ICF/ICDs (contd)

2. A DPOC is a plan of correction that contains all the elements of a traditional Plan of Correction (POC). It differs from a traditional POC in that the state develops the DPOC, not the facility. The facility must take action or accomplish the DPOC within specified time frames.
 3. If the facility fails to achieve substantial compliance after complying with the DPOC, the state may impose another alternative sanction or sanctions until the facility achieves substantial compliance or it is terminated from the Medicaid program. The state measures substantial compliance when it determines the facility has complied with the DPOC and meets the requirements of the CoPs.
- B. Directed In-Service Training
1. The state may impose directed in-service training when the CoPs are out of compliance. The state chooses directed in-service training when it determines the facility needs the acquisition of specific knowledge in order to make specific systemic changes in order to gain compliance and it has (or will be) unable to do so.
 2. The state may choose directed in-service training when it concludes that education is likely to correct the deficiencies. This remedy requires the staff of the ICF/IID to attend in-service training program(s). The purpose is to provide knowledge required to achieve compliance and remain in compliance with the CoPs.
 3. The state measures substantial compliance when facility staff successfully complete the directed in-service-training and the facility meets the requirements of the CoPs.
- C. State Monitoring
1. The state may impose state monitoring when the CoPs are found to be out of compliance. The state chooses state monitoring when it determines the facility needs close monitoring of the implementation of its PoC or the DPOC to ensure the Plan is fully implemented and the systemic changes required are progressing and occur as needed in order to gain compliance, and the facility has (or will be) unable to do so.
 2. A state monitor oversees the correction of cited deficiencies in the facility as a safeguard against further noncompliance when a situation with a potential for jeopardizing health and safety has occurred, but has not risen to the level of immediate jeopardy.
 3. The state measures substantial compliance when it receives assurance from the state monitor that the facility has completed the PoC or DPOC and meets the requirements of the PoC.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State WASHINGTON

Enforcement of compliance for ICF/IIDS (contd)

D. Deny payment for new admissions

1. When a facility has failed to meet one or more conditions of participation, the state gives the facility 60 days from the survey date to meet the conditions. If the facility does not correct the conditions by the specified date, and if the state chooses to impose a Denial of Payment for new admissions, the state gives the facility notice of intent to impose the remedy.
2. The state may impose a Denial of Payment for up to 11 months. If the state finds serious violations during this 11-month period, it may terminate the facility while the Denial of Payment is in effect.
3. The state may lift the Denial of Payment earlier if a facility is in compliance or is making a good faith effort to comply. (42 CFR 442.118)
4. The state must terminate the agreement if the facility is not in substantial compliance at the end of the 11 months. The state measures substantial compliance through a follow-up survey process related to compliance with cited CoPs and cited Standard level regulations. The facility is entitled to an Evidentiary Hearing. (42 CFR 442.119)

E. Temporary management and receivership

1. Temporary management permits the state to impose temporary management for a facility when the state determines the facility's continued substantial non-compliance with federal regulations is due to the inability of the facility's management staff to ensure compliance with the regulations.
2. Temporary management is for a specified period of time set at the time of enforcement. The state will determine compliance through a survey re-visit when the facility/temporary manager sends the state a letter alleging compliance has been achieved. When the state determines that the facility has achieved compliance, temporary management will be stopped.
3. The state considers receivership to correct problems associated with either the disregard of clients' safety, health, or welfare, or with the possible closure of the ICF/IID for any reason.
