Washington State Opioid Response

Recovery Support Program

MONTHLY SUMMARY REPORT
January 2019 - September 2020

October 21, 2020

About this Report

This report is intended for program monitoring of the State Opioid Response (SOR) Recovery Support (RS) program. The RS project sites are funded under the SOR grant through contracts with the Health Care Authority's Division of Behavioral Health and Recovery. Each RS program is obligated to maintain a caseload of a predetermined number of clients. This report shows the overall demographics of all persons enrolled in the RS program, as well as the enrollment numbers by RS program. All persons served by this program must have opioid use disorder or be in recovery from an opioid use disorder.

UNDERSTANDING THE REPORT

Q What is the Recovery Support Program?

The Recovery Support (RS) Program connects individuals with an opioid use disorder to community supports. Individuals may self-refer to the RS program, or obtain referrals from substance use treatment providers, drug courts, emergency rooms, or friend. Participants connect with a peer/recovery coach, a mutual support group, and recovery care manager. Additional services are provided as needed and requested by the participant.

DEFINITIONS

- **Events**
  Total number of enrollments into the RS program. Single episodes are marked by an enrollment into the program. Individuals who discharge and return will have more than one event.

- **Clients**
  Total number of unique clients enrolled in the RS program. Each client is only counted once.

- **Discharges**
  Discharges are recorded when a client is no longer receiving services from the RS program.

- **Year-2 Target & Enrollment**
  RS Programs have an annual contracted event target. The grey line (Figure 1) shows the RS program annual target (100), and the blue bar displays the number of events within the current grant year (33).

- **Enrollments Over Time**
  Based on the monthly target, this graph (Figure 2) shows the cumulative events in relation to the target. The grey line is the cumulative target (18) and the blue line is cumulative RS program events (32).

- **Reported Discharges**
  The percent of clients with a reported discharge. Discharges indicate an individual left the program and no longer receives SOR funded services. This is not a retention measure and relies on agency reporting.
