

Support your loved ones living with Substance Use Disorder: **Free family/caregiver training**

Learn, connect, and empower

This training helps **parents, family members, and caregivers** learn how to support their loved ones impacted by substance use behaviors or living with substance use disorder diagnoses.

Training details

This training prepared in partnership with WSCC staff and EnRoute Network, spans 16 hours over 4 days, with attendance required on all 4 days. Visit wccsupport.org/family-navigator-training/ to learn more details and access training dates.

Topics covered

Interactive, research-based content will include:

- Information on Substance Use Disorder: What it is and how it's treated
- The impact of substances on the adolescent and developing brain
- Skills for families and caregivers to address self-care, set boundaries, and support treatment

Toolkit

Participants receive a toolkit with information and resources on SUD supports and services specific to Washington State, serving as a reference guide.

Register today

Register for ongoing sessions throughout the year:

wccsupport.org/family-navigator-training/
