

Reentry Demonstration Initiative

Cohort 1: Initial participation requirements

This guidance document shares the requirements for carceral facilities to complete **after** the Health Care Authority (HCA) formally accepts your Intent to Participate form. Submitting this form completes **Milestone 1** and makes your facility eligible to receive funding. The next steps are:

1. Set up your facility as a statewide vendor/payee and in the Financial Executor (FE) Portal

HCA will contact you to set up your facility’s accounts as a statewide vendor/payee and through the FE Portal. Participating facilities will receive their first funding payment in July 2024 through the statewide vendor process. All other capacity building payments will be made through the FE Portal.

2. Finalize and return your facility’s Reentry Initiative contract with HCA

HCA will send individual contracts to each participating facility. Your facility will need to review, sign, and return the contract to HCA before we release funding to your facility.

3. Write your facility’s Capacity Building Application

HCA will release the Capacity Building Application in July 2024. This application includes your facility’s Implementation Plan and budget, which is due October 2, 2024. Each facility will describe how it plans to support pre-release services. The budget will detail the funding necessary to support the services provided. Once HCA formally accepts your application, your facility will receive additional funding.

4. Work with HCA on your facility’s Capacity Building Application

HCA will schedule one-on-one meetings with each facility in August and September 2024 to discuss your facility’s progress toward completing the Capacity Building Application and answer any questions.

Submitting the Capacity Building Application completes **Milestone 2**.
