REFERENCES

- **HUD Chronic Homelessness Criteria.** Criteria can be met in two ways. For the **Lengthy criteria** an enrollee is determined to be experiencing 12 continuous months of homelessness within the past year. For the **Frequent criteria** an enrollee is determined to have experienced 4 episodes of homelessness over the past 3 years, which equal 12+ total months spent homeless. The Lengthy and Frequent criteria are not mutually exclusive. Note that the results are a proxy for the HUD criteria based on ACES data, and not Homeless Management Information System (HMIS).
- **PRISM risk score.** A risk score of 1.5 means the person's future medical expenditures are expected to be 50% higher than an average SSI disabled person. A change in PRISM risk score is not an appropriate measure for assessing the impact of the program.

ACA = Affordable Care Act | CHIP = Children's Health Insurance Program | CN = Categorically Needy | HEN = Housing and Essential Needs | HUD = Housing & Urban Development

SUPPORTIVE HOUSING - CARE ASSESSMENT

NOTES

CARE Assessment Notes.

- Comprehensive Assessment Reporting Evaluation (CARE) is the tool used by case managers to document a client's functional ability, determine eligibility for long-term care services, evaluate what and how much assistance a client will receive, and develop a plan of care.
