

# Welcome!

## The learning series webinar will begin momentarily.

Your microphone will be muted while presenters are speaking.

Use the chat throughout the presentation to ask questions. We will get to them during the Q&A.

Please keep your video off during the presentation to avoid distractions.

The webinar is being recorded and will be posted on the HCA website within a week.

# Reentry Initiative

---

## Reentry Initiative Benefits Webinar

February 19, 2025

# Welcome

---

- ▶ We're recording this webinar and have muted all attendees.
  - ▶ Turn on live captioning with the "Show Captions" button.
- ▶ There will be time at the end for Q&A.
  - ▶ Submit comments through the "Chat" function.
  - ▶ We will hold all questions until the Q&A portion.
- ▶ HCA does not permit Artificial Intelligence (AI) note taking apps.
- ▶ Slide deck and webinar recording will be available at:
  - ▶ <https://www.hca.wa.gov/about-hca/programs-and-initiatives/medicaid-transformation-project-mtp/reentry-carceral-setting>

# Webinar objectives

---

Program requirements overview (10 mins)

Reentry Initiative services (35 mins)

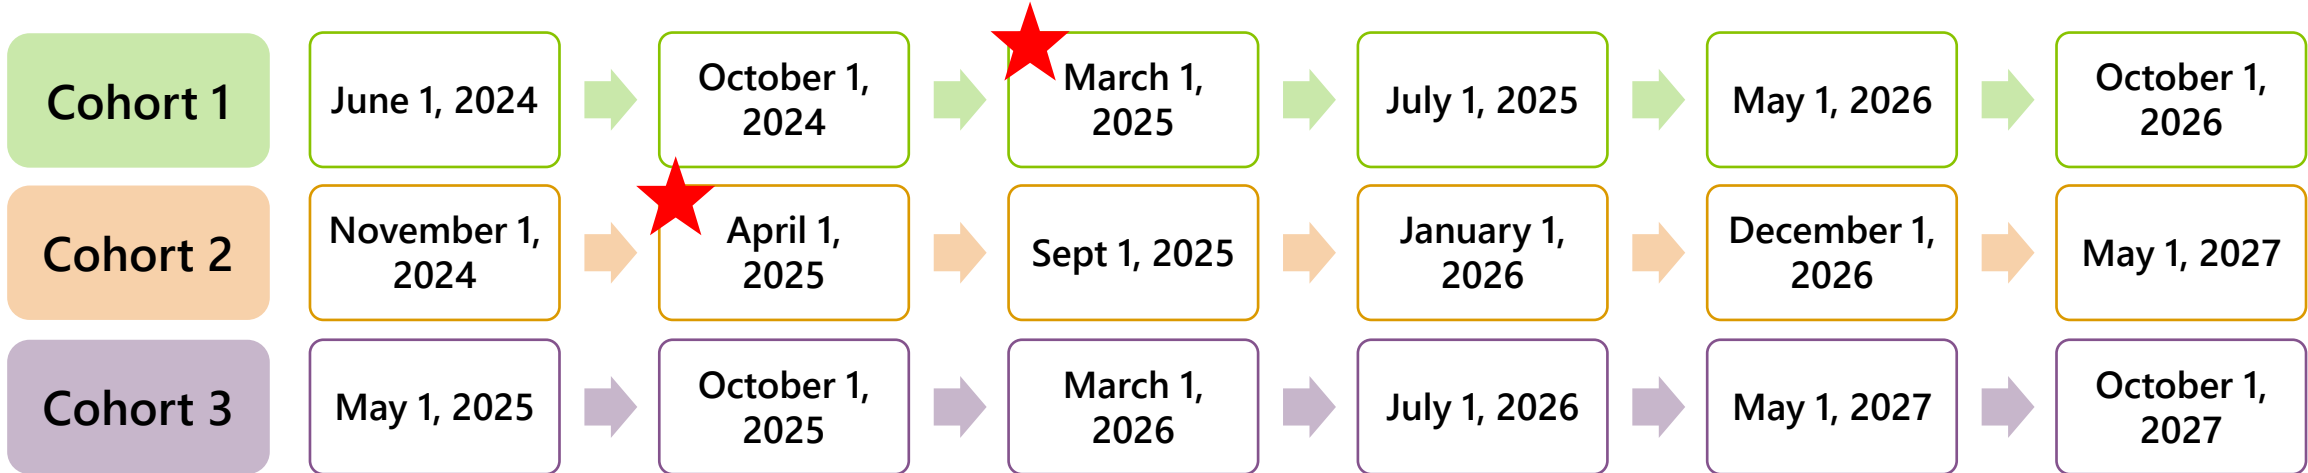

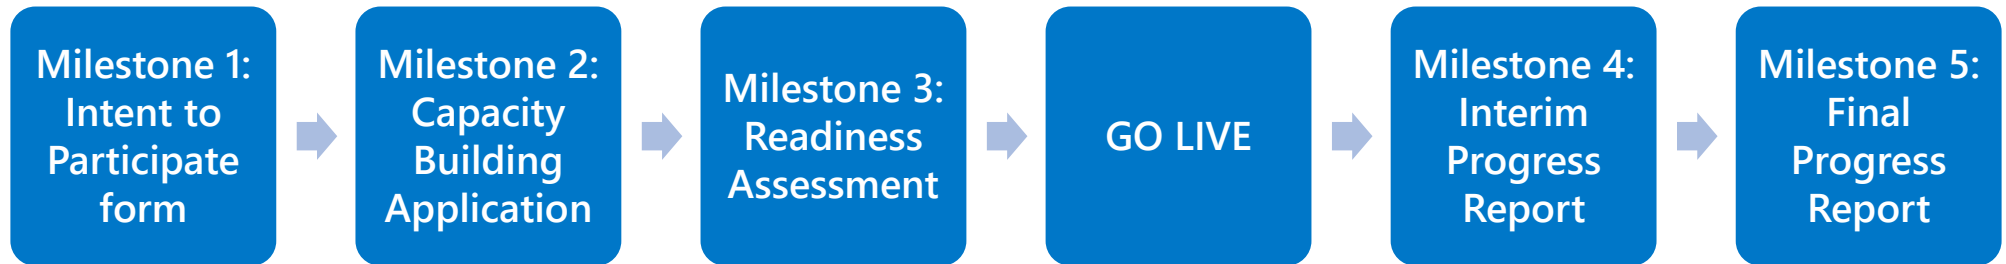

*Mandatory and optional services; short- and long-term guidance*

Q&A & resources (15 mins)

# Program Requirements Overview

# Reentry Initiative Milestones

# Milestones 2 and 3

---

- ▶ **Milestone 2:** Each attestation question in the Capacity Building Application (CBA) is a requirement for program participation.
- ▶ The Reentry Initiative Policy and Operations Guide provides step-by-step instructions for facilities to meet program requirements.
- ▶ This learning webinar series walks facilities through each requirement in the Reentry Initiative Policy and Operations Guide.
  - ▶ HCA will release the Reentry Initiative Policy and Operations Guide in sections over the next few months to correspond with each learning series webinar.
- ▶ **Milestone 3:** To pass the Readiness Assessment, facilities will need to demonstrate – in writing – how they achieved each requirement in the CBA.
  - ▶ Important: Facilities must pass the Readiness Assessment to go live.

# Learning series webinars and Milestone 2: CBA requirements

*Each webinar will cover a specific Milestone 2: CBA requirement.*

Topic	CBA sections and questions
Provider enrollment	<ul style="list-style-type: none"> <li>• CBA section 4: Provider enrollment and billing (question 1)</li> </ul>
MCO contracting and credentialing	<ul style="list-style-type: none"> <li>• CBA section 4: Provider enrollment and billing (questions 2 and 3)</li> </ul>
Client eligibility and enrollment, Consolidated Appropriations Act (CAA) benefits for youth	<ul style="list-style-type: none"> <li>• CBA section 3: Apple Health intake and release data, screening, application support, and release date notifications (questions 1–7, 9–12)</li> </ul>

lead should  
attend all  
webinars.*

## Provider enrollment

Wednesday, January 8  
at 10:00 a.m.

(providers, leadership,  
administrative staff)

## MCO contracting and credentialing

Wednesday, January 15  
at 10:00 a.m.

(leadership, admin staff)

## Client eligibility and enrollment

Wednesday, January 22  
at 10:00 a.m.

(intake screening staff,  
community workers, MCOs)

## Pre-release services delivery (part 1)

Wednesday, February 5  
at 10:00 a.m.

(clinical staff, community  
providers, intake screening staff)

## Pre-release services delivery (part 2)

Wednesday, February 19  
at 10:00 a.m.

(clinical staff, community  
providers, intake screening staff)

## HCA web resources and other requirements

Wednesday, March 5  
at 1:00 p.m.

(leadership, admin staff)

## Readiness Assessment intro and walk-through

Wednesday, March 12  
at 10:00 p.m.

(leadership, admin, clinical staff)

## Additional topics, open forum, Q&A

Wednesday, March 19  
at 10:00 a.m.

(leadership, admin staff)

# Program requirements being discussed today

---

- ▶ CBA section 5: Case management
- ▶ CBA section 6: Support for medications
- ▶ CBA section 7: Additional services – optional

# Reentry Initiative Benefits

# Reminder: scope of eligible services

At minimum, participating facilities must support a set of mandatory pre-release services and may select additional optional services at go live or a later date.

## Today: recap & follow-up discussion

### Mandatory services

*Participating facilities must support all services*

- Reentry Targeted Case Management (rTCM)\*
- Reentry Substance use disorder (SUD)
- Reentry Pharmacy: Medications at release
- Pre-adjudication CAA-eligible clients: Apple Health benefits\*
- Post-adjudication CAA-eligible clients: Clinical assessment and evaluation\*

## Today: brief overview

### Optional services

*Participating facilities may select one or more services*

- Clinical assessment and evaluations for adults
- Pharmacy: Pre-release medications
- Laboratory services
- Radiology services
- Services from providers with lived experience
- Medical equipment and supplies at release

\*Per the Consolidated Appropriations Act of 2023 (CAA), additional benefits affect facilities that house youth under age 21 and foster care alumni up to age 26:

- Provide rTCM and clinical assessment and evaluation services during post-adjudication; and,
- Provide Apple Health benefits during pre-adjudication beyond those listed under the Reentry Initiative.

# Overview of Reentry Initiative benefits

Benefits are covered by Apple Health for eligible Apple Health clients when:

- Provided as allowed in Apple Health Provider Billing Guides and related documents
- When medically necessary (as defined in WAC)

Goal	Focus areas	More information
<p>Prevent morbidity and mortality post-release by:</p> <ul style="list-style-type: none"><li>• Identifying health needs</li><li>• Supporting client engagement in health care services to address identified needs</li><li>• Facilitating services that assess and meet an individual's health needs</li></ul>	<p>Chronic conditions and infectious diseases</p> <ul style="list-style-type: none"><li>• Substance use disorders (SUD), to include opioid use disorder (OUD) and alcohol use disorder (AUD)</li><li>• Mental health conditions</li><li>• Hepatitis C, HIV</li></ul>	<ul style="list-style-type: none"><li>• Reentry Initiative Policy and Operations Guide and related documents for details (e.g., Provider Billing Guides)</li><li>• <a href="#">Reentry Initiative Procedure Code List</a> for Reentry Initiative covered procedure codes (<i>posted</i>)</li><li>• See presentation appendix for related resources</li></ul>

# Mandatory Benefits

# Steps for Reentry Targeted Case Management

Reentry Targeted Case Management (rTCM) is a mandatory service for carceral facilities and is a person-centered, recovery-focused approach to address the health of justice-involved Apple Health clients.

## First step: Identification of need

### Reentry Health Screening

Carceral facilities are required to screen clients for health needs to:

- Identify unmet health needs
- Connect clients to rTCM

## Pre-release rTCM

### Pre-release rTCM includes:

- Reentry Health Assessment to identify health needs
- Reentry Care Plan for health stability at and after release
- Care Coordination and links clients to health care services
- Warm handoff to post release provider

Clients are eligible for rTCM **90 days prior to release** and services should begin **pre-release when possible**.

## Post-release rTCM

### Post-release rTCM includes:

- If not previously completed: Reentry Health Assessment and Reentry Care Plan development
- Care Coordination: Scheduling appointments, monitoring, and following up on treatment plan

Clients are eligible for rTCM post-release for **30 days and longer** when medically necessary.

# rTCM Delivery System

In the pre-release period, the carceral facility is the responsible entity to ensure rTCM for all Apple Health clients. In the immediate post-release period, the MCO is responsible for MCO clients, and the TPA for fee-for-service clients.

**Pre-release rTCM**  
(90 days pre-release)

*MCO and FFS clients*

**Responsible entity: Carceral facilities**

Ensure delivery of pre-release rTCM services and have flexibility in designing the provider network, which may include:

- Carceral health care providers
- Community-based providers
- MCO providers
- TPA providers

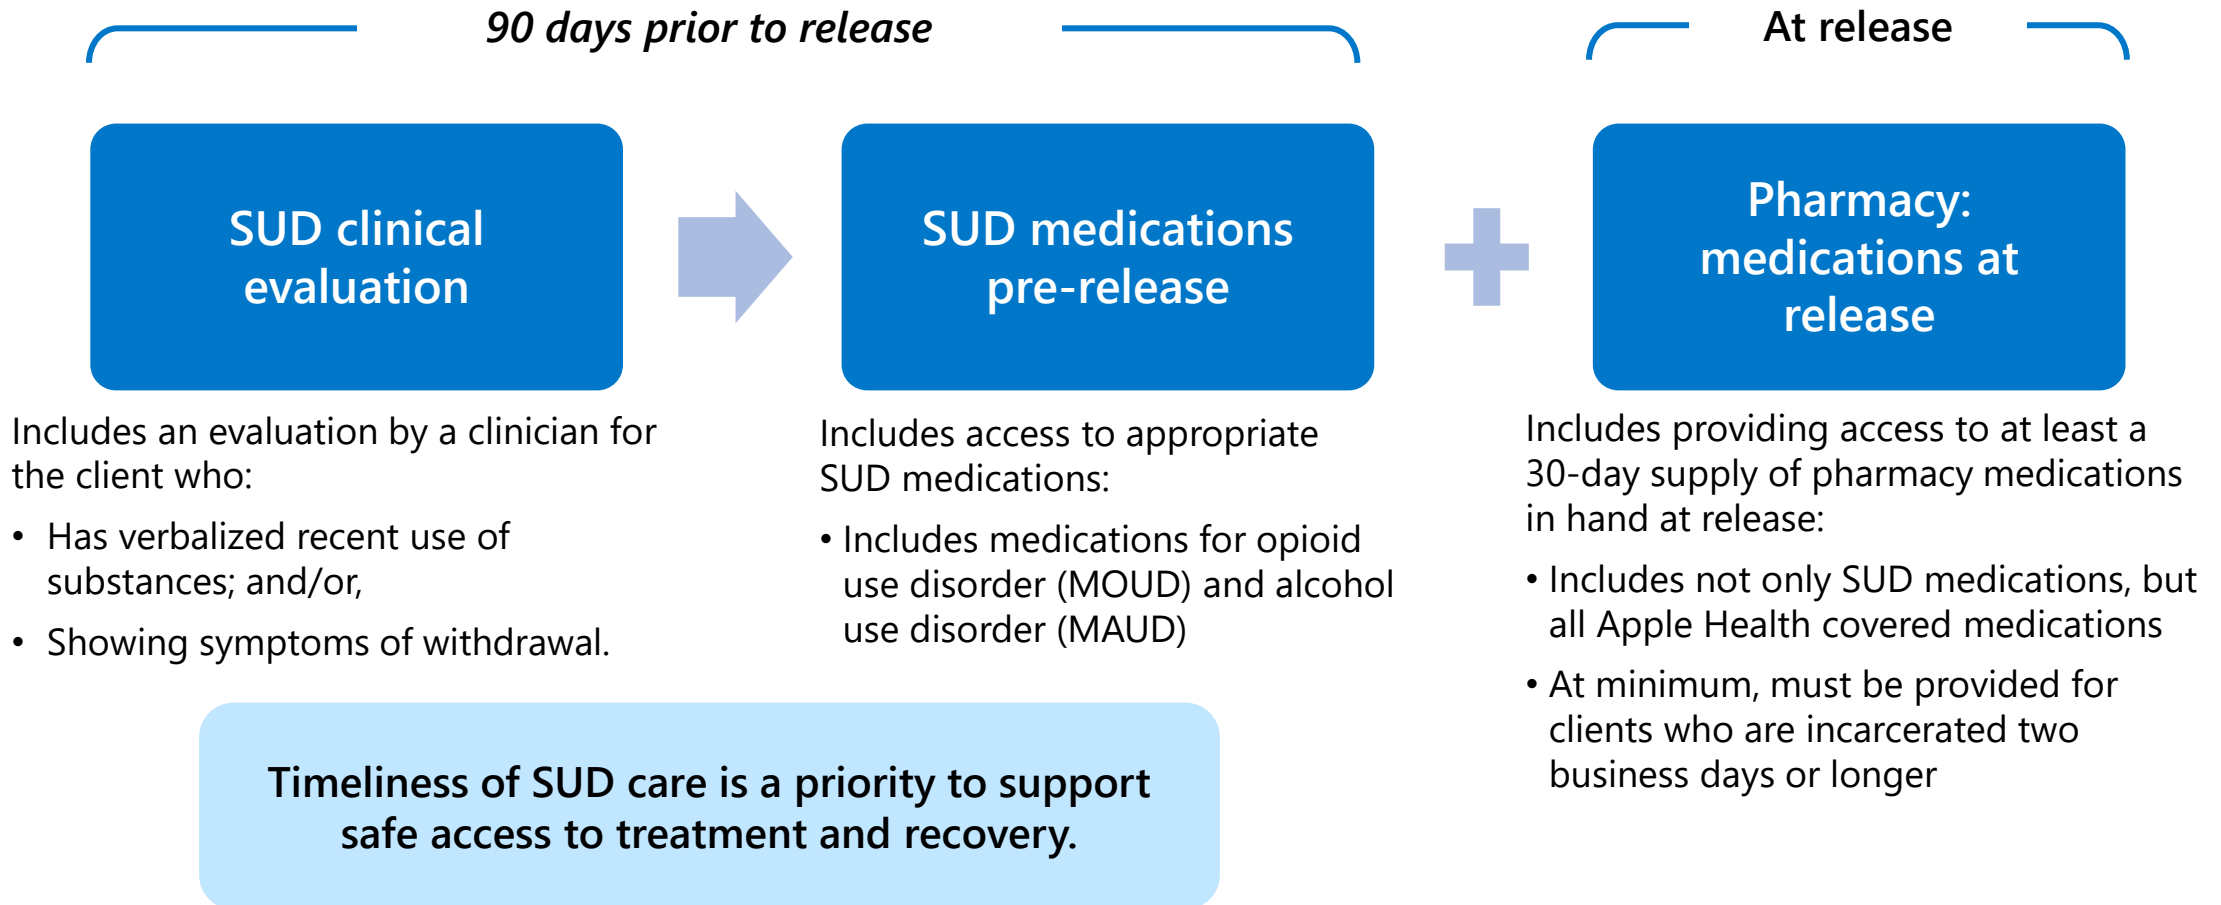

Post-release rTCM (30 days post-release and longer as medically necessary)	
<i>MCO enrollees</i>	<i>FFS clients</i>
<p><b>Responsible entity: MCO</b></p> <p>Ensure delivery of post-release rTCM for their managed care enrollees.</p>	<p><b>Responsible entity: TPA</b></p> <p>Ensure delivery of post-release rTCM for FFS clients.</p>

- ▶ Warm handoff: Required whenever care manager changes (e.g., pre- to post-release)

Eligible rTCM providers, called **care managers**, include:

- Clinical social workers
- Mental health counselors
- Marriage and family therapists
- Registered nurses
- Others as defined in the Apple Health Billing Guide

# Overview of mandatory Reentry SUD and Reentry Pharmacy benefits

# Reentry SUD and Reentry Pharmacy tips

---

## ▶ Reentry SUD tips

- ▶ Obtain DEA registration to support continuity for methadone
- ▶ Identify clients needing SUD treatment early
- ▶ Consult MOUD in Jail: Standards of Care

## ▶ 30-Day Reentry Pharmacy tips:

- ▶ Coordinate with local pharmacy for release
- ▶ Pharmacy hours

# Consolidated Appropriations Act (CAA) Benefits

In addition to the mandatory Reentry Initiative services, the Consolidated Appropriations Act (CAA) of 2023 requires certain additional benefits to be provided to incarcerated youth enrolled in Medicaid:

- Age 20 and younger, or
- Under age 26 and eligible for Apple Health under the foster care alumni eligibility group

Eligible population	Additional required benefit	Examples of impacted facilities
<b>Pre-adjudication CAA-eligible clients</b>	Apple Health benefits beyond those under the Reentry Initiative	<ul style="list-style-type: none"> <li>• Locally-run youth correctional facilities</li> <li>• City, county, and tribal jails</li> </ul>
<b>Post-adjudication CAA-eligible clients</b>	Clinical assessments and evaluations in the 30 days prior to release (or up to 90 days prior to release) or no later than 7 days post-release	<ul style="list-style-type: none"> <li>• Department of Children, Youth and Families facilities</li> <li>• Locally-run youth correctional facilities</li> <li>• Department of Corrections facilities</li> <li>• City, county, and tribal jails</li> </ul>

# Optional Reentry Initiative Benefits

# Clinical assessment and evaluation for adults

Carceral facilities may opt to provide access to clinical assessment and evaluation services for adults during the 90 days pre-release period, in addition to the mandatory Reentry SUD and CAA-eligible benefits.

## Assessment/Evaluation/Diagnosis includes:

- **Screening, assessment, and evaluation of health conditions**, including needs identification, engagement in care, recovery-focused motivational interviewing, and choice counseling.
- **Diagnosis**
- **Provision of treatment**, as appropriate, to ensure stability and control chronic conditions (e.g., medication administration).
- **Recommendations for pre-release treatment and services**, including referrals to other providers for additional evaluation or treatment services (e.g., specialty provider).
- **Recommendations for post-release treatment and services**, including identifying potential areas for further assessment or diagnosis in support of post-release treatment plan development (e.g., residential level of care).

# Pharmacy: pre-release medications

Carceral facilities may opt to provide access to pre-release medications during the 90 days pre-release period, in addition to the mandatory SUD medications and 30-day supply of medications at release.

- ▶ Carceral facilities opting to provide this benefit must ensure continuity of care for the 90-day pre-release period, which means providing continuation of all FDA approved medications.
  - ▶ Must ensure continuity of care until medication is transitioned if clinically appropriate or prior authorization verified or obtained if Apple Health coverage
  - ▶ There should be no gap in dosing
  - ▶ Staff should verify prescription and if unable to do so, notify provider. The provider should determine whether the medication should be continued pending verification

## Pharmacy includes:

- **Apple Health Preferred Drug List** covered prescriptions, over-the-counter drugs (OTC) and pharmacy-supplied medical supplies covered at the pharmacy point of sale
- **Professionally administered medications/ drugs**, referring to medication administration required by a clinical provider (e.g., injectables, vaccines) with coverage of the medication administration and the drug itself

# Lab and radiology services

Carceral facilities may opt to provide medically necessary lab and radiology services during the 90-day pre-release period.

## Labs

**Examples include:**

- COVID-19 testing
- Drug testing for substance use disorders
- Immunology testing (e.g., HIV screening)
- Organ and disease-oriented panels

## Radiology

**Examples include:**

- Diagnostic imaging (e.g., CT scans, MRIs)
- Portable X-rays
- Ultrasounds

# Services from providers with lived experience

Carceral facilities may opt to provide access to services from providers with lived experience during the 90 days pre-release period.

These providers:

- ▶ First-hand knowledge and insight gained from navigating challenges similar to those faced by the population served or self-identify as having a similar condition.
- ▶ Trusted members of the community served
- ▶ Unique understanding of life circumstances experienced.
- ▶ Serve as a link between health care and the community to facilitate access to services and improve the quality and cultural competence of service delivery.

## Providers for this service

- **Community health workers (CHW):** Frontline public health workers who serve as an intermediary between health care and the community. The CHW services includes services from tribal-serving Community Health Representative (CHR).
- **Birth doulas:** Trained, non-medical persons who provide emotional, physical, psychosocial, and informational support to pregnant, birthing, post-pregnancy people, and their families.
- **Certified peer counselors:** Self-identify as a person with lived experience with mental health or substance use services, or are a parent or legal guardian of a minor child with lived experience with mental health or substance use services, who draws upon their experiences to help peers find hope and make progress toward recovery and wellness goals.

# Medical equipment and supplies at release

Carceral facilities may opt to provide access to medical equipment and supplies at release, which includes medically necessary equipment and supplies.

- ▶ Medical equipment and supplies include:
  - ▶ **Medical equipment and supplies** (e.g., wheelchairs, adult incontinence supplies)
  - ▶ **Vision and hearing hardware** (e.g., eyeglasses for clients 20 years of age and younger)
  - ▶ **Prosthetics and orthotic devices** (e.g., orthopedic footwear)
  - ▶ **Sleep and respiratory devices** (e.g., continuous positive airway pressure or CPAP devices)

See the Pharmacy section for other medical equipment and supplies, which are covered within the pharmacy point-of-sale system (e.g., syringes, diabetes test strips).

# Benefit Guidance for Short- and Long-Term Stays

# Benefits and length of incarceration

---

## ▶ Short-term stays (less than 90 days expected):

- ▶ For clients with stays expected to be less than 90 days (e.g., no estimated release date upon entry into jails): Reentry Initiative benefits should begin as soon as possible once eligibility for Apple Health has been confirmed.

## ▶ Long-term stays (longer than 90 days to ERD):

- ▶ Reentry Initiative benefits should begin 90 days prior to the individual's expected release date, as clinically appropriate.
- ▶ Facilities should confirm the individual's eligibility for Apple Health before the 90 days pre-release period to support access to Reentry Initiative benefits as early as possible (when the 90-day period begins).

# Service delivery expectations for short-term incarcerations

✓=HCA required latest possible timing

Timeline (Hours/Business Days Since AH Enrollment)		24 Hours	48 Hours	Day 3	Day 4	Day 5	Day 6	Day 7	Days 8-14	Days 15-21
<b>Mandatory: Medicaid Eligibility and Screenings</b>										
	Apple Health Eligibility Check	✓								
	Reentry Health Screening	✓								
<b>Mandatory: Reentry Benefits</b>										
	SUD: Continuity of Existing Medications	✓								
	SUD: Evaluation + Initiation of New Medications	✓								
	Pharmacy: 30-Day Supply of Medications at Release			<i>Provided at release, at minimum to individuals with stays lasting at least 2 business days</i>						
	rTCM: Care Manager Assignment		✓							
	rTCM: Reentry Health Assessment			✓						
	rTCM: Reentry Care Plan + Coordination				✓					
	rTCM: Warm Handoff	<i>Should occur before release and no later than 7 days post-release</i>								
	Pre-adjudication CAA-Eligible Clients: Apple Health benefits	<i>To be provided while the individual remains in a pre-adjudication status</i>								
	Post-adjudication CAA-eligible Clients: Clinical Assessment and Evaluation*	<i>30 days prior to release at minimum</i>								
<b>Optional: Additional Reentry Initiative Services</b>										
	Clinical Assessment and Evaluation for Adults	<i>Should be provided as early as possible, when appropriate</i>								
	Pharmacy: Pre-Release Medications									
	Lab and Radiology Services									
	Services from Providers with Lived Experience									
	Medical Equipment & Supplies at Release	<i>At release, planning recommended ahead</i>								

# Illustrative example: short-term stay for CAA-eligible youth

Joe: 18-year-old male (CAA-eligible), in pre-adjudication in a city jail.

## Intake and Pre-Release Benefits

### Apple Health Eligibility Check (Day 1)

CF checks Joe's Apple Health enrollment status, verifies he is Apple Health eligible, and is an MCO enrollee.

### Reentry Health Screening (Day 1)

CF screens Joe who reports that he takes methadone but his OTP provider is in another county far from the jail. He expresses interest in a rTCM care manager.

### Reentry SUD (Day 1)

CF arranges the embedded provider to see him for an evaluation of his SUD who then verifies prior dose of methadone with his community OTP provider and continues medication while incarcerated.

### Pre-Release rTCM Care Manager Assigned (Day 2)

(embedded CF provider)

### rTCM Reentry Health Assessment (Day 3)

Care Manager conducts a Reentry Health Assessment, which identifies Joe also has asthma, doesn't have any medications for it, and doesn't know his PCP.

### rTCM Care Plan and Coordination (Day 4)

Care Manager develops care plan with Joe and starts to coordinate: Community OTP for post-release transition planning; PCP for asthma evaluation via scheduling a wellness check with immunizations; identifying/transferring Rx fill for asthma emergency Rx

## Planning for Reentry

### Adjudication & Release Date Identified (Day 6)

Joe goes to court on and is scheduled to be released on Day 7

### rTCM Warm Handoff (Day 6)

On Day 6, pre-release care manager conducts warm handoff to the post-release care manager (MCO), which involves:

- Introducing and connecting Joe to post-release care manager;
- Sharing care plan, assessment & screening, current records. Information sharing about status: SUD, asthma, OTP information and PCP

### Medications at Release (Day 7)

Providing 30-day supply of asthma emergency Rx (pick up filled Rx) & Coordinating with local pharmacy for refill of emergency asthma medication.

Release Date  
Day 7

## Post-Release

### Post-Release rTCM Coordination (30 Days Post-Release and Beyond)

MCO care manager:

- Confirms the care plan with Joe, including OTP follow up, appointment planning for scheduled wellness check-up and immunization.
- Follow-up with Joe to ensure connection to care, monitoring of needs, and following up on treatment plan.
- No further reentry health needs identified. Joe discharged from rTCM with contact information for MCO help if needed.

# Service delivery expectations for long-term incarcerations

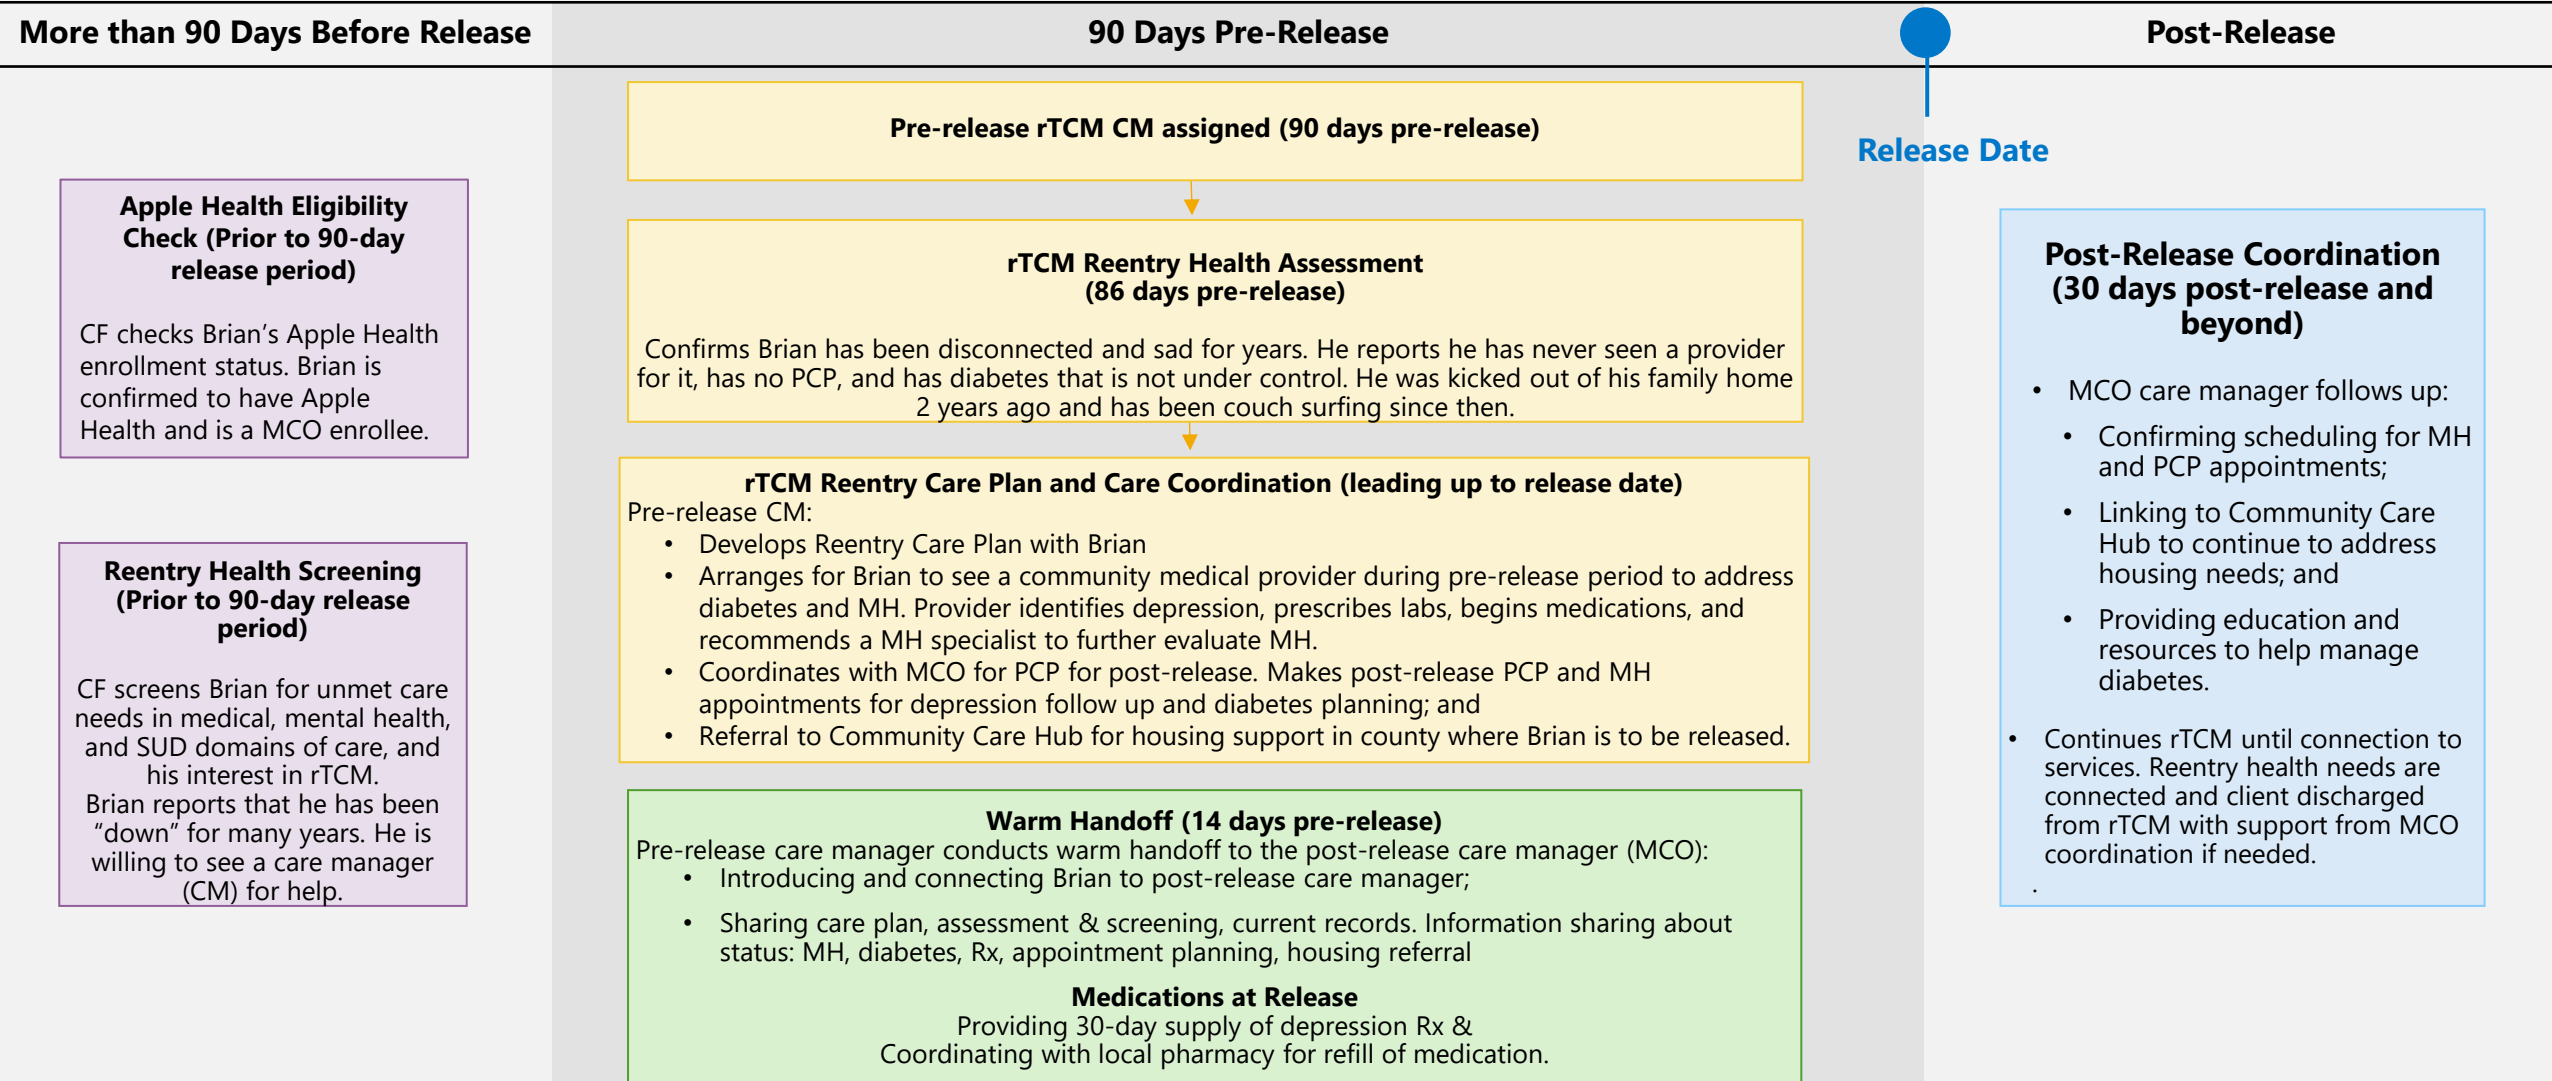

✓=HCA required latest possible timing

Timeline (Days Before Release)		Prior to 90 Days	Days 90 to 61	Days 60 to 31	Days 30 to Release
<b>Mandatory: Medicaid Eligibility and Screenings</b>					
	Apple Health Eligibility Check	<i>recommended</i>	✓		
	Reentry Health Screening	<i>recommended</i>	✓		
<b>Mandatory: Reentry Benefits</b>					
	Reentry SUD: Continuity of Existing Medications		✓ Day 90		
	Reentry SUD: Evaluation + Initiation of New Medications	<i>Scheduling Recommended</i>	✓ Day 90		
	Pharmacy: 30-Day Supply of Medications at Release		<i>Planning Recommended</i>		✓ At Release
	rTCM Care Manager Assignment		✓		
	rTCM Reentry Health Assessment		✓		
	rTCM Care Plan + Coordination		✓		
	rTCM Warm Handoff				✓ 14 days prior to release*
	Pre-adjudication CAA-eligible Clients: Apple Health Benefits	<i>To be provided while the individual remains in a pre-adjudication status</i>			
	Post-adjudication CAA-eligible Clients: Clinical Assessment and Evaluation*				✓ 30 days prior to release
<b>Optional: Additional Reentry Initiative Services</b>					
	Clinical Assessment and Evaluation for Adults		<i>Provided as close as possible to the start of the 90-day period, as appropriate.</i>		
	Pharmacy: Pre-Release Medications				
	Lab and Radiology Services				
	Services from Providers with Lived Experience				
	Medical Equipment & Supplies at Release		<i>Planning Recommended</i>	<i>At Release</i>	

\*and no later than 7 days post-release

# Illustrative example: long-term stay for adult

**Brian: 46-year-old male, incarcerated at a county jail with an expected release date in 6 months.**

# Appendix

# Existing benefit: inpatient hospitalization

---

Carceral facilities are required to provide access to needed inpatient hospitalization services.

- ▶ Facilities should continue to support access to hospital care, as appropriate.
- ▶ Hospitals may submit claims for reimbursement of hospital stays lasting 24 hours or more for incarcerated individuals, including inpatient care and any associated professional or outpatient claims during the hospitalization.
