Client Outcomes for Clients Currently In Progress

Biannual Report Data

Client Outcomes In Progress (Women Currently Involved 6 to 30 months): Washington State PCAP

Each client has been assigned to a case manager who helps the client identify and prioritize realistic goals and take steps toward achieving those goals. Every 6 months, based on client's enrollment date, case managers assess their clients' progress using the *Biannual Documentation of Client Progress*. Client status to date for clients currently enrolled in PCAP for at least 6 months are presented below. Note that clients are reported by site where biannual was completed, not by client location at end of June 2024.

PCAP Client Exit Outcomes

Exit ASI Interview Data

Exit Outcomes Among PCAP Clients: Washington State PCAP

PCAP clients exit the program three years after their PCAP enrollment. These tables present PCAP exit information over the past 6 years, i.e., data for clients exiting July 2018–June 2024, including 24 "early exits" whose projected three-year exit dates were between July 2024 and March 2025. Some of the tables include information for 503 clients who have not been located for Exit Interview but for whom we have cumulative program data. Data are separated by site based on where clients exited rather than by site where they were enrolled.
