

Agreement Regarding Uniform Medical Plan (UMP) Classic Medicare Between Washington State Health Care Authority and the Stakeholders' Medicare Coalition December 19, 2022

The Stakeholders' Medicare Coalition is composed of the nine signatories noted below. The Coalition is committed to expanding health care plan choice, expanding active employee and retiree voice in health care policy decision-making, and preserving traditional Medicare options in Washington State.

Ensure a robust understanding among the retiree and active employee communities that UMP Classic Medicare **is not closing** and there is no recommendation, proposal, or intended action by current HCA Leadership for the foreseeable future, demonstrating HCA listens to and respects the voices of PEBB members.
