David Reed, HCA Division of Behavioral Health and Recovery

Ken Taylor, DSHS Behavioral Health Administration

Trueblood Settlement Implementation

Richard VanCleave

HCA Division of Behavioral Health and Recovery

1115 IMD Waiver for Mental Health

1115 IMD Waiver Background

Federal rules prohibit the use of Medicaid funds for services to individuals who reside in an Institution for Mental Disease (IMD) for more than 15 days during a calendar month.

In 2016 CMS offered states the opportunity to apply for an 1115 demonstration waiver allowing Medicaid-funded treatment in SUD IMDs.

In 2017 Washington State was granted an 1115 waiver amendment for SUD IMD facilities. The amendment application required the state to make changes to its SUD treatment system.

A 2018 executive order allows 1115 waivers for MH IMD facilities.

Washington State's 1115 MH IMD Waiver Application

Washington began work on the 1115 MH IMD in early 2019.

The target date for approval and implementation is July 1, 2020.

The state is seeking technical assistance and further guidance from CMS regarding application requirements.

IMD Waiver Application Highlights

Requirements similar to those under the SUD IMD 1115 Waiver:

States must meet milestones within two years.

Requires an average 30 day stay during the demonstration.

States will report quarterly on a common set of metrics.

Requires an approved implementation plan and updated Health Information Technology plan before state begins using Medicaid for MH IMDs.

Requirements different than those under the SUD IMD Waiver:

Does not apply to individuals under age 21 unless they reside in certain IMD facilities.

Maintenance of financial effort will be considered when reviewing applications, in order to ensure states continue to fund outpatient services.

Requires accredited facilities.

Required 1115 MH IMD Waiver Milestones

Quality of Care: Accredited facilities, screening for co-occurring conditions, compliance requirements, and utilization management.

Improved Care Coordination: Pre-discharge care coordination, housing assessment, follow-up calls, and strategies to increase data sharing among providers.

Increased Access to Care: Focuses on crisis stabilization, statewide assessments of mental health outpatient networks, and evidence-based tools for determining level of care.

Earlier Identification and Engagement: Programs to increase the number of younger adults in treatment, supported employment, and integration of behavioral health care in non-specialty care settings (schools and primary care).

Draft Timeline

Date	Project Milestone
4/1/2019	Project Start
5/1/2019	Determine SMEs
5/15/2019	Info Gathering
6/1/2019	Secure Budget for Contractors (RDA, Mercer)
7/1/2019	Complete Draft Application
7/15/2019	Complete Application/Exec Review
10/1/2019	Tribal Notice
10/1/2019	Public Notice
11/1/2019	Begin Tribal Roundtables
12/1/2019	Tribal Consultation
1/1/2020	Submit Application to CMS
7/1/2020	CMS Approval/Begin FFP

Online Resource:

<https://www.cdc.gov/injury/fundedprograms/tribal.html>

The screenshot shows the CDC Injury Prevention & Control website. At the top left is the CDC logo with the text "Centers for Disease Control and Prevention" and "CDC 24/7: Saving Lives, Protecting People™". To the right is a search bar. Below the header is a purple navigation bar with the text "Injury Prevention & Control". Underneath is a breadcrumb trail: "Injury Center > Funded Programs, Activities and Research". On the right side of the breadcrumb trail are social media icons for Facebook, Twitter, Email, and RSS. A left-hand navigation menu includes: "Injury Center" (with a home icon), "About the Injury Center" (+), "Data and Statistics (WISQARS)" (+), "Funded Programs, Activities and Research" (selected, with a minus icon), "Funded Programs", "Funding to States", and "Extramural" (+). The main content area features a large article titled "Injury Prevention in American Indian and Alaska Native Communities" with a background image of a desert road. Below the title is a sub-section titled "Tribal Road Safety" with the text: "Motor vehicle crashes are a leading cause of unintentional injury death for American Indians/Alaska Natives." and a "Learn more>>" link.

CEUs with Meaningful Cultural Training

Is anyone sponsoring “cultural training” for counseling staff to support CEU requirements?

Training programs sponsored by the agency where a counselor is employed are acceptable if the experience contributes to the advancement, extension and enhancement of the professional competence of the licensed marriage and family therapist, licensed mental health counselor and/or the licensed social worker and the training programs to 26 hours per reporting period.

How do I become an approved CE provider?

The department doesn't approve continuing education for licensed mental health counselors, licensed marriage and family therapists or licensed social workers.

BHI Certification Consultation Follow Up Update

Milestones	Tasks
<p>ISSUE #1 Create an attestation process for substance use disorder treatment services similar to the current attestation form for mental health services.</p>	<p>take place at this meeting.</p>
